LETTER OF RECOMENDATION

Production company „*Promostal Sp. z o.o. Sp. k.*” was a contractor for the steel construction **Kv Bocken 25 – ca.40 t**

The workmanship, the delivery and the assembly of the steel construction mentioned above was carried out by old hands, having long-standing and extensive experience in the field of the execution of steel constructions. The high technical culture and the labour organization guaranteed performing a task in the discussed time, according to documentation and technical requirements with both right norms and regulations. Moreover a cooperation with trusted supplier, guaranteeing the best quality of used products accompanied the completion of the assembly.

In our opinion company „*Promostal Sp. z o.o. Sp. k.*” is recommendable on account of the solidity, the quality and the promptness of the performed task.

Yours sincerely,
