

PROMOSTAL Sp. z o.o. Sp. k.  
ul. Fabryczna 7/29,  
16-020 Czarna Białostocka

NCC Construction Sverige AB had the pleasure of working with PROMOSTAL on Hornbach Byggmarknad project in Helsingborg, Sweden. PROMOSTAL was subcontracted to design and optimize the steel structure of the building, as well as manufacture, deliver and assemble it on site (ca. 800 tons). The contract covered also the fire protection of almost all the elements of the construction.

NCC found PROMOSTAL to be an outstanding subcontractor. They exhibit the finest qualities in terms of primer product, work, flexibility and efficiency in management. PROMOSTAL performed they work safely and finished it on time despite hard weather conditions. Their management was very engaged in the project, helping to solve any problems that occurred during the course of construction.

PROMOSTAL has proven that they are a valued partner.

NCC looks forward to working with PROMOSTAL in the future.

Sincerely,

Ola Holmgren  
NCC Construction Sverige AB
