

Letter of recommendation

We hereby confirm that PROMOSTAL Sp. z o.o. Sp. k. has manufactured, delivered and assembled steel construction for our project Vaernes holdeplass (No. 240895).

Promostal was subcontracted to the following scope of work:

- design of connection points
- workshop drawings
- delivery of material
- fabrication
- documentation (quality documentation of steel and surface treatment)
- transport to site in Norway
- unloading and assembling on site

Our experience with the staff of PROMOSTAL is very positive regarding all of these points. We had a very good dialog with the PROMOSTAL's engineers. The quality of the work performed by the steelworkers and welders in factory was very impressive as well as the assembling on site. PROMOSTAL's staff has followed all our safety regulations without any incidents

SKANSKA NORGE AS found PROMOSTAL to be an outstanding subcontractor exhibiting the finest qualities in terms of their product, work, flexibility and efficiency in management. PROMOSTAL solved the tasks and challenges of the project in an excellent way. Their management was very engaged in the project, helping to solve any problems that occurred during the course of the work.

SKANSKA NORGE AS can recommend PROMOSTAL as a very competent partner to work with. We are looking forward to work with PROMOSTAL in future projects.

Asbjørn Myklebust

IWE/Welding inspector.
