TO WHOM IT MAY CONCERN

Keppel Seghers Belgium NV had the pleasure of working with **PROMOSTAL** in our EPC Project for the Municipal Waste Treatment Plant Project in Bialystok, Poland.

PROMOSTAL was subcontracted for the Detailed Engineering, Manufacturing and Assembly of the Steel Structure for the Boiler, Fly Ash Solidification Plant and Staircases, also for the Flue Gas Cleaning Structure, including related grating and railing.

Keppel Seghers Belgium NV had an excellent experience and qualifies **PROMOSTAL** as an exemplary subcontractor. **PROMOSTAL** performed their work safely registering "0" accident. They delivered on schedule and demonstrated finest quality in their product, work, flexibility and efficiency in project execution. Their management was very engaged and committed, contributing to resolve challenges arisen during the course of the construction.

Keppel Seghers Belgium NV is looking forward to be working with **PROMOSTAL** in future projects.
