

Promostal Sp.z o.o. Sp.K.  
ul. Fabryczna 7/29  
16-020 Czarna Białostocka

## Reference letter

BM Steel Construction Copenhagen A/S had the pleasure of working with Promostal on the Biogen project in Copenhagen, Denmark in the period of October-December 2015.

Promostal was subcontracted to the following scope of work:

- Designing – workshop drawings
- Manufacturing of steel structure
- Delivery of gratings
- Transport to site

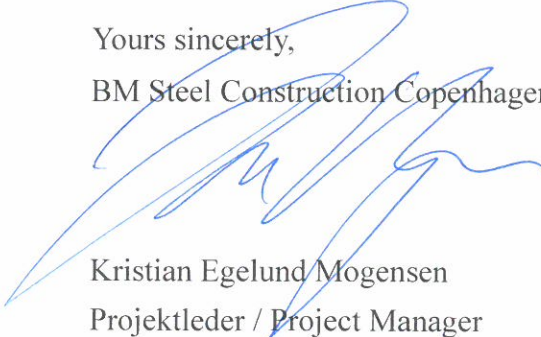

The contract covered also fire protection of the construction.

All works were carried out in accordance with our requirements and our satisfaction. The quality of the work performed by the steelworkers and welders in factory was very impressive. BMSCC found PROMOSTAL to be an outstanding subcontractor exhibiting the finest qualities in terms of their product, work, flexibility and efficiency in management.

BM Steel Construction Copenhagen A/S can recommend PROMOSTAL as a very competent partner to work with. We are looking forward to work with PROMOSTAL in future projects.

Yours sincerely,

BM Steel Construction Copenhagen A/S

Kristian Egelund Mogensen  
Projektleder / Project Manager
