

To whom it may concern

Letter of recommendation for Promostal Sp. z o.o. Sp. k.

We hereby confirm that Promostal Sp. z o.o. Sp. k. was our subcontractor in the scope of manufacturing of construction steel on Esbjerg Shopping Center project.

The work of Promostal included all the works for correct execution and complete finishing of welded beams, steel trusses and temporary steel. The process included the following:

- Inspection plan
- Steel material
- Paint material
- Test assembly of temporary steel on welded beams
- Documentation.

The project was executed from May 2015 until December 2015. The total weight of the steel structure executed by Promostal is 1 400 000 kg.

In general Promostal have performed very well and has been flexible throughout the project. We have received a good quality and on time – this includes also the workshop drawings.

Med venlig hilsen/Best Regards
